QUALITY AREA 2

PURPOSE

This policy will provide a framework for:

- the development of specific emergency and evacuation procedures, practices and guidelines at Highvale Preschool
- raising the awareness of everyone attending Highvale Preschool about potential emergency situations and appropriate responses.

POLICY STATEMENT

VALUES

Highvale Preschool is committed to:

- providing a safe environment for all children, staff and persons participating in programs at Highvale Preschool
- having a plan to manage emergency situations in a way that reduces risk to those present on the premises,
- ensuring effective procedures are in place to manage emergency incidents at the service,
- ensuring an appropriate response during and following emergency incidents to meet the needs of the children, their families, staff and others at the service,
- informing parents/guardians how communication will be provided in a case of emergency.

SCOPE

This policy applies to the approved provider, persons with management or control, nominated supervisor, persons in day-to-day charge, early childhood teachers, educators, staff, students, volunteers, parents/guardians, children, and others attending the programs and activities of Highvale Preschool, including during offsite excursions and activities.

RESPONSIBILITIES	Approved provider and persons with management or	Nominated supervisor and persons in day-to-day charge	Early childhood teacher, educators and all other staff	Parents/guardians	Contractors, volunteers and students	
R indicates legislation requirement, and should not be deleted						
Ensuring the Emergency and Evacuation Policy and procedures are in place	R	√				
Taking reasonable steps to ensure that nominated supervisors, early childhood teachers, educators, staff and volunteers follow the policy and procedures and are aware of their responsibilities	R	V				
Completing the DET Emergency Management Plan and attaching a copy to this policy	R	√	√			
Ensuring the service's emergency management contact details are up to date on NQA ITS online portal	R	√				
Identifying if the service is on the BARR (refer to Definitions)	R	√				
Conducting a risk assessment to identify potential emergencies that the service may encounter (Regulation 97(2))	R	√	√			

Conducting a risk assessment of emergency evacuation routes and assembly points Developing instructions for what must be done in the event of an emergency (Regulation 97(1)(0)) Appointing an incident Management Team (IMT) to oversee safety at the service in the event of an emergency and evacuation floor plan (Regulation 97(1)(b)) Ensuring that a copy of the emergency and evacuation floor plan and instructions are displayed in a prominent position near each exit at the service premises, and near each exit that from spart of the evacuation route out of the service (Regulation 97(4)) Ensuring that the emergency and evacuation drills are rehearsed and documented at least once every 3 months by everyone attending the service. If the service has more than one emergency and evacuation procedure (evacuation and lockdown) all procedures must be rehearsed over the course of the year. (Regulation 97(3)(a)) Ensuring that all staff, students, volunteers and visitors are aware of emergency evacuation points Ensuring that all staff, students, volunteers and visitors are aware of emergency evacuation points Ensuring that charge vacuation Developing procedures that consider collecting children's medication and managing children's medical conditions Providing feedback regarding the effectiveness of emergency and evacuation procedures to inform policy, procedures and manuals etc. Testing alarms and communication systems regularly, such as on a monthly basis Ensuring that those working at, or attending the service, have access to a phone for immediate communication with parents/guardians and emergency services (Regulation 98), and that phone numbers of emergency explains and accordance with requirements specified by regulations, such as the Australian Staglaged Identifying potential onsite hazards and taking action to manage and minimise risks Ensuring all infrastructure and service equipment are regularly checked for condition and mainteannee, including emergency exit lighting. Ensuring the location of first aid kit						
Developing instructions for what must be done in the event of an emergency (Regulation 97(1)(0)) Appointing an incident Management Team (IMT) to oversee safety at the service in the event of an emergency and evacuation floor plan (Regulation 97(1)(b)) Ensuring that a copy of the emergency and evacuation floor plan and instructions are displayed in a prominent position near each exit at the service premises, and near each exit that from sparl of the evacuation route out of the service (Regulation 97(4)) Ensuring that the emergency and evacuation drills are rehearsed and documented at least once every 3 months by everyone attending the service. If the service (Regulation 97(4)) Ensuring that all staff, students, volunteers and visitors are aware of emergency evacuation points. Ensuring up-to-date portable emergency contact lists are held in each room within the service and that evacuation procedure (sevacuation and lockdown) all procedure (sevacuation and lockdown) all procedures were the course of the year. (Regulation 97(3)(a)) Ensuring that all staff, students, volunteers and visitors are aware of emergency evacuation points. Ensuring up-to-date portable emergency contact lists are held in each room within the service and that evacuation procedures state who will carry this list during evacuation. Developing procedures that consider collecting children's medication and managing children's medical conditions. Providing feedback regarding the effectiveness of emergency and evacuation procedures to inform policy, procedures and manuals etc. Testing alarms and communication systems regularly, such as on a monthly basis. Ensuring that those working at, or attending the service, have access to a phone for immediate communication with parents/guardians and emergency services (Regulation 98), and that phone numbers of emergency services (Regulation 98), and that phone numbers of emergency services (Regulation 98), and that phone numbers of emergency services (Regulation 98), and that phone numbers of emergen		R	√	V

BACKGROUND AND LEGISLATION

BACKGROUND

The Education and Care Services National Regulations 2011 define an emergency in relation to an education and care service as any situation or event that poses an imminent or severe risk to the persons at the service premises e.g., flood, fire or a situation that requires the service premises to be locked down.

Comprehensive emergency management includes prevention, preparedness, response and recovery. Services are required to have policies and procedures in place detailing what needs to be done in an emergency, including an emergency and evacuation floor plan. These policies and procedures must be based on a risk assessment that identifies potential emergencies relevant to the service (Regulation 97).

QUALITY AREA 2

Early childhood services have a duty of care to all attending the facility including the children, staff, volunteers, students, visitors, and contractors. It is also a requirement under the Occupational Health and Safety Act 2004 that employers provide a healthy and safe environment for all persons who access the service's facilities and/or programs.

All services in Victoria are required to have an Emergency Management Plan (EMP) (refer to Definitions) as part of their everyday operations and are required to regularly rehearse their emergency and evacuation procedures (Regulation 97). They must:

- Rehearse the procedures every 3 months and document it,
- Involve everyone present at the service at the time of the rehearsal. This includes all staff members, volunteers, children, and the responsible person who is present at the time of the rehearsal.

A copy of the service's emergency and evacuation policy and procedures must be available for inspection at the service premises at all times or on request.

LEGISLATION AND STANDARDS

Relevant legislation and standards include but are not limited to:

- Education and Care Services National Law Act 2010
- Education and Care Services National Regulations 2011 including Regulations 97, 98, 168(2)(e)
- National Quality Standard, including Quality Area 2: Children's Health and Safety
- · Occupational Health and Safety Act 2004

DEFINITIONS

Country Fire Authority (CFA): CFA respond to a variety of fire and emergency incidents. They are also involved in a range of other activities including:

- fire safety building inspections
- delivering community awareness, education and safety programs
- post-incident analysis and fire investigation
- fire prevention planning and land use planning at a municipal level

Bushfire at Risk Register (BARR): Kindergartens and childcare facilities assessed to be at the highest risk of fire are placed on the department's BARR. Inclusion on this register is a trigger for the kindergarten or childcare facility to pre-emptively close on days determined Catastrophic in their Bureau of Meteorology district, as well as other pre-emptive and preparedness actions in line with their fire risk category.

Emergency drill/rehearsal: A process to rehearse anticipated emergency scenarios or events, designed to help clarify roles and responsibilities, provide training and verify the adequacy of the emergency response

Emergency Management Plan (EMP): A written set of instructions for the service to prepare for and respond to emergencies. A guide to preparing an emergency plan and an Emergency Management Plan templates are available on the DET website (refer to Sources)

Emergency services: Includes ambulance, fire brigade, police and state emergency services.

Evacuation floor plan: An evacuation plan is used where it is deemed necessary to evacuate the immediate area or building to ensure the safety and wellbeing of children and adults. It may also have the name 'evacuation diagram'diagram.'

Evacuation route: Continuous path of travel (including exits, public corridors and the like) from any part of a building to a safe place

Fire Rescue Victoria (FRV): (previously known as Metropolitan Fire Brigade) respond to fires, complex rescues, road crashes, emergency medical calls and hazardous chemical spills. The FRV aims to reduce the incidence and impact of

QUALITY AREA 2

fire and other emergencies on the community. This is achieved through the delivery of educational strategies that assist the community to become more self-reliant, including:

- delivering expert fire and rescue services to the community they serve
- driving systemic change to the built environment through reforms to building design, regulations and legislation, and
- educating the community through fire prevention programs that improve community safety and build resilience

Hazard: A source or situation with a potential for harm in terms of human injury or ill health, damage to property, damage to the environment or a combination of these

Incident Management Team (IMT): Is the group of incident management personnel comprising of the incident controller and other personnel appointed to be responsible for the functions of operations, planning, and logistics

Lock down: A security measure taken during an emergency to prevent people from leaving or entering a building or premises until the threat or risk has been resolved

Planned closure: services identified as being at high fire risk and on the DET's Bushfire At-Risk Register will close on days determined to have a fire danger rating of Code Red by the Emergency Management Commissioner. Where possible, four to seven days' notice of a planned closure will be provided. Services not on the Department's Bushfire At-Risk Register will remain open, unless directly threatened by fire or another emergency

Risk management: A structured approach to managing uncertainty related to a threat; a sequence of activities including the identification, assessment and prioritisation of risks followed by co-ordinated and economical application of resources to minimise, monitor and control the probability and/or impact of those risks.

WorkSafe Victoria: The manager of Victoria's workplace safety system. WorkSafe Victoria:

- strives to prevent workplace injuries, illness and fatalities
- provides benefits to injured workers and helps them to return to work
- enforces Victoria's occupational health and safety laws
- provides reasonably priced workplace injury insurance for employers
- provides an emergency response service 24 hours per day

EVALUATION

In order to assess whether the values and purposes of the policy have been achieved, the approved provider will:

- review the policy to determine whether it adequately addresses a range of potential emergency situations
- regularly seek feedback from everyone affected by the policy regarding its effectiveness particularly following an emergency
- review procedures, including evacuation procedures, to determine their effectiveness, including timing and processes
- use information gained from checks on documentation and practices and the Incident, Injury,
 Trauma and Illness Record to inform proposed changes to this policy
- revise the policy and procedures as part of the service's policy review cycle, or as required by legislation, research, policy and best practice
- consult with emergency services such as the FRV and CFA, to ensure the policy and procedures meet current best practices
- notifying all stakeholders affected by this policy at least 14 days before making any significant changes to this policy or its procedures, unless a lesser period is necessary due to risk (*Regulation* 172 (2)).
